

DR. C.J. PETERS

Director for Biodefense
Center for Biodefense and Emerging Infectious Diseases
The University of Texas Medical Branch at Galveston

AFTER TRAVELING THE GLOBE, HE FOUND THE WORLD'S DEADLIEST DISEASES AT A UNIVERSITY.

Meet the ex-army colonel who could save you from SARS, Rift Valley Fever or other life-threatening epidemics. After decades of battling exotic infectious diseases around the world, Dr. Peters now trains scientists to work in UTMB's maximum-security Biosafety Level 4 lab. His team's cutting-edge research on viruses and emerging diseases could help our state and the world respond to a destructive viral outbreak.

All across Texas, public universities are working to protect and improve your health, safety and quality of life – your tomorrow.
